Aug 2021

Threekit award for the best-designed configurator, for my work with Lindsey Scoggins, a UK-based jeweller

Communitech Design to Win / First Place

Jan 2019

UX challenge to design an application to help newly-arrived refugees find resources in Canada.

- Came in first place with a $5000 prize
- Won against hundreds of other competitors

Personal Projects

MUI Theme Builder

Feb 2026

Generator/editor for modern, accessible MUI themes

- Recommended by official MUI docs
- Thousands of monthly users

Vite | MUI | TypeScript | React

Toaster

May 2023

Proof-of-concept pure-CSS 3D-modelling tool. Hit HackerNews front page and 270+ stars on Github

Vite | SASS | TypeScript | React

Work Experience

Leap Tools / Senior Developer & Team Lead

Jun 2025 to Nov 2025

- Led a Design System Team maintaining a React component library for an AI room visualizer (Roomvo) with millions of daily users
- Ensured ADA-compliant a11y to enable deployments on Home Depot, Redfin, Costco, et. al. websites
- Built AI-driven frontend features using modern TypeScript, React, and Next.js (with test coverage)
- Created high-fidelity mockups for new features/components in Figma

TypeScript | React | Redux | RTK Query | Figma | MUI | Gitlab | Jest | React Testing Library | Django | Next.js

Leap Tools / Software Developer & Team Lead

Aug 2023 to Jun 2025

- Built a ground-up design system for our React frontend, with focus on a11y, i18n, & customizability
- Rewrote significant parts of Roomvo from Polymer to React, TypeScript, Next.js, & Redux, while maintaining uptime for millions of users

TypeScript | React | Redux | Figma | MUI | Gitlab | Jest | React Testing Library | Django

Sortabase / Cofounder & Full-Stack Engineer

Nov 2021 to present

Sortabase is a collaborative, visual database-building platform for communities

- Working on every part of the product stack, from strategy to design to frontend to backend to devops
- After a pivot, our current product has hundreds of users and thousands of posts across dozens of community-built databases

Next.js | Vercel | Prisma | S3 | SASS | TypeScript | React | Figma | Ant Design | Sendgrid | Auth0 | Zod

Threekit / UX Designer & Consultant

May 2019 to Oct 2021

Worked with clients, sales, & technical teams to design & deploy Threekit's 3D configurators

- Created high-fidelity Figma designs for clients, designing custom 3D configurators for their businesses
- Designed a React component library and design system to standardize and accelerate Threekit implementations
- Designed the Threekit 3D asset CMS and rendering platform from scratch

React | Figma | Illustrator | Sketchup | Storybook
