- Came in first place with a $5000 prize
- Competed against thousands of students nationwide

Personal Projects

Toaster: CSS 3D Editor

May 2023

3D editor that models in pure HTML and CSS; reached Hacker News homepage, 250+ stars on Github

TypeScript | SASS | Vite | React | 3D

Work Experience

Leap Tools / Senior Web Developer & Team Lead

July 2025 - November 2025

Led the design systems team, building AI-powered room visualization tools for Home Depot, Redfin, et. al.

- Led architectural upgrades including: Babel → SWC leading to 3x faster builds on our landing page; RTK 1 → RTK 2 which enabled native infinite scrolling across the application
- Led a team building dozens of accessible & performant React components, using modern CSS/JS APIs (e.g. container queries & logical properties)
- Delivered full-stack features with RTK Query API integration, accessibility, smooth CSS transitions, internationalization, and Jest test coverage

Figma | React | TypeScript | Jest | MUI | Redux | Gitlab | RTK Query | React Testing Library | Next.js | Django

Leap Tools / Web Developer & Team Lead

Aug 2023 - June 2025

Spearheaded migration from Polymer to React, and building a new design system using MUI

- Implemented a new design system (in collaboration with designers) across a live application with millions of daily users
- Ensured the design system was easy to use by our development team, as well as easily-customizable by our customers

Figma | React | TypeScript | Jest | Django | MUI | Gitlab | React Testing Library | Next.js

Sortabase / Cofounder & Full-Stack Developer

Nov 2021 - July 2023

Sortabase is a collaborative, visual database-building platform for communities

- Working on the entire product stack: strategy, design, frontend, backend, and devops
- Sortabase currently has hundreds of users and thousands of posts across dozens of databases

Next.js | SASS | Prisma | React | TypeScript | Figma | S3

Threekit / UX Designer & Consultant

May 2019 - Oct 2021

Worked with clients and internal teams to deploy Threekit's technology with superior UX outcomes

- Designed a React component library and design system, used by hundreds of designers
- Built low- and high-fidelity Figma prototypes for new and prospective clients

React | Figma | Sketchup | Storybook | 3D | AR
